Powerreel cable reel

Innovative and cost-reducing

PowerReel Products has an appropriate cable reel for virtually every type of cable and situation. For every model you can choose between a reel with a fixed cable or a version with an existing loose extension cable. The first has the coupling socket in the spindle of the reel, whereas the model for the loose extension cable has the socket in a case that was rigged in the drum. This means that the cable can be easily wound up. In addition to the more than thirty standard models we supply made-to-measure models as well.

A good cable reel is the preservation of high voltage current cables

The cables need no longer be wound up manually which always causes twists in the cable. By winding the cable round a reel there is hardly any chance of damage. The warehouse stocks can be safely moved around without damaging the cables, the reels can be shifted easily.

Total cost of ownership

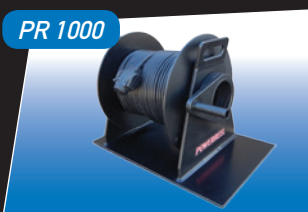

All our reels definitely recover the costs. Apart from preventing damage you need less manpower. Unwinding can simply and fast be done by one person by means of our special dolly.

Safe handling
Safe storage
Safe work

POWERREEL PRODUCES UNIQUE CABLE REELS FOR

The most efficient cable management system in the world

PR 1000
Rated voltage: 230V
Ampere: 16A
Cable: H07RN-F
Conductor: 3G2,5
Max. length: 100 meter
Manufacturer: PowerReel Products
Type: PR 1000

PR 2000
Rated voltage: 400V
Ampere: 16A, 32A
Cable: H07RN-F
Conductor: 5G4, 5G6
Max. length: 100 meter
Manufacturer: PowerReel Products
Type: PR 2000, PR 2016, PR 2032

PR 3000
Rated voltage: 400V
Ampere: 16A, 32A, 63A
Cable: H07RN-F
Conductor: 5G4, 5G6, 5G16
Max. length: 50 / 100 meter
Manufacturer: PowerReel Products
Type: PR 3000, PR 3016, PR 3032, PR 3063

PR 4000
Rated voltage: 400V
Ampere: 16A, 32A, 63A
Cable: H07RN-F
Conductor: 5G4, 5G6, 5G16
Max. length: 100 meter
Manufacturer: PowerReel Products
Type: PR 4000, PR 4016, PR 4032, PR 4063

We cherish the view that man is the measure of a good cable reel

Our PowerReel products are designed around the human being, man is the central point. With our unique cable reels people can work in a reliable way, according to the Health and Safety at Work Act.

Lifting up 400V extension cables requires a great deal of effort and cannot be done in an ergonomically reliable way.

No backache or joint injuries because of the lifting, lugging and dragging of heavy high voltage current cables. The yielding and heavy cables are proverbially "as light as a feather".

Working with the PowerReel cable reels is absolutely safe and sound.

FOR HIGH VOLTAGE CURRENT EXTENSION CABLES

PR 5000
Rated voltage: 400V
Ampere: 16A, 32A, 63A, 125A
Cable: H07RN-F
Conductor: 5G4, 5G6, 5G16, 5G35
Max. length: 100 meter
Manufacturer: PowerReel Products
Type: PR 5000, PR 5016, PR 5032, PR 5063 PR 5125

PR 6000
Rated voltage: 400V
Ampere: 16A, 32A, 63A, 125A
Cable: H07RN-F
Conductor: 5G4, 5G6, 5G16, 5G35
Max. length: 100 meter
Manufacturer: PowerReel Products
Type: PR 6000, PR 6016, PR 6032, PR 6063 PR 6125

PR 7000
Rated voltage: 400V
Ampere: 32A, 63A, 125A
Cable: H07RN-F
Conductor: 5G6, 5G16, 5G35, 5G50
Max. length: 100 meter
Manufacturer: PowerReel Products
Type: PR 7000, PR 7032, PR 7063, PR 7125

PR 8000
Rated voltage: 400V
Ampere: 32A, 63A, 125A
Cable: H07RN-F
Conductor: 5G6, 5G16, 5G35, 5G50
Max. length: 100 meter
Manufacturer: PowerReel Products
Type: PR 8000, PR 8032, PR 8063, PR 8125
